Fatal Accident at Sundre.

John Lewis Jennings, a man of about 47 years of age, and farming in the district between Sundre and Bergen, west of Didsbury, was found on Saturday last lying on the ground near his residence apparently lifeless. The discovery was made by a son of Mr. Scott, who farms north of the scene of the accident.

It appears that at the request of his parent, the boy had gone over to his neighbour to borrow a fork, and when near the house came across the body of Jennings.

Dr. Evans of Didsbury was called out, who made an examination and found that in addition to a fractured skull there were several abrasions on the wrist.

Indications as gathered from the surroundings would lead to the belief that Jennings, who had untied his horse, a somewhat restive animal, from the fence, and with the halter rope around his wrist in all probability was making an inspection of the animal when he received the kick.

It is stated that Jennings, who has been living by himself, was working the farm for his father, a Presbyterian minister living at Newberg, Indiana. A brother, Harry, living at Spokane, has been notified of the accident.

A diary belonging to deceased was found in the house, and apparently was filled in up to Saturday morning.

Wedding

On October 5th, the home of Mr. and Mrs. Avarde Orde, Springside, was the scene of a very pretty wedding when their daughter, Dorothy Elizabeth, became the bride of William Robertson of Calhurst. Rev. H. Clay of Olds officiating. The decoration scheme was carried out in mauve and white.

The bride, charming in white satin, with bridal veil and orange blossoms and carrying a beautiful bouquet of pink roses, entered the room on the arm of her father to the strains of the wedding march played by Mr. Mann. Mrs. William Reid, gowned in taffeta and carrying a bouquet of mauve asters was matron of honor, while Mr. George Ashcroft supported the groom.

Following the ceremony and congratulations, a very dainty buffet luncheon was served. The happy couple left in the evening train for their home in Calhurst followed by the best wishes of a host of friends.

CANCER

Great Success of Cantassium Treatment

A well-known London surgeon and recognized authority on Cancer has created world-wide interest in the discovery that Cancer is due to a deficiency of potassium "salts" in the body, which causes the cells to break down and become malignant.

In order that every one may learn

The Real Cause of Cancer

A remarkable book has been specially written. This book will be sent free to patients or any one who is interested in the most successful method of fighting "THE CANCER SILENCER".

The following is a list of the chapters:

1. The Limitations of Surgery; 2. Some Doctors Oppose Operations; 3. What Cancer Is; 4. Why the BODY CELLS BREAK DOWN; 5. Infectious Cooking Methods; 6. Common Errors in Diet; 7. Vital Elements of Food; 8. Medical Remedies of Our Times; 9. The Chief Minerals of the Body; 10. The Thyroid Gland; 11. Age When Lime Begins to Accumulate; 12. Potassium Causes Lime Excretion; 13. Great Value of Potassium; 14. Parts of the Body Liable to Cancer; 15. Parts Which Are Seldom Affected; 16. How a Doctor Can Help; 17. How to Avoid Cancer; 18. Death-rate From Cancer; 19. Arterial Sclerosis and Old Age; 20. Rheumatism, Gout and Kindred Complaints.

With this book are a number of interesting case reports proving the great value of "Cantassium Treatment" in various cases. The treatment is simple and inexpensive, and can be easily taken in one's own home. Apply for free book to Charles Walter, 51 Brunswick Avenue, Toronto, Ontario, Canada.

Englishman Has Odd Farm

Specializes in Butterflies and Ships Them All Over Country

Nowadays there are many kinds of farms, but the oddest is probably the Butterfly farm. Mr. L. W. Newman's remarkable establishment in Kent, England, sends thousands of butterflies and moths to all part of the country. In Yorkshire there is a butterfly farm at Burnistone, near Scarborough. Mr. Newman specializes in British specimens alone, but at Burnistone all manner of exotic species are included. In the late summer display of Indian silk moth and other beautiful foreign races is a thing to be remembered.

For HEMORRHOIDS (Piles) try this safe easy treatment

Don't plan on a surgical operation before you've tried Anusol Suppositories.

For while surgical attention is sometimes necessary the fact remains that many of your fellow sufferers have avoided the surgeon's knife by the use of these medicated, remedial agents, Anusol Suppositories are favorably known to the medical profession and are backed by a half century of success in the healing of Hemorrhoids (Piles).

Free from harmful ingredients. Safe and effective for young and old. Sold by druggists everywhere in red sealed boxes.

WORLD HAPPENINGS BRIEFLY TOLD

Amnesty for 800 prisoners on the occasion of President Von Hindenburg's eightieth birthday has been requested by the German League for Human Rights.

When the Niagara left Auckland, N.Z. recently, she took 5,600 boxes of butter for Vancouver and 1,100 for Victoria. She had a quantity also for Honolulu and Shanghai, the total shipment being 8,232 boxes.

Explosion of a German howitzer shell, used to decorate the doorway at the Villa of Gen. Boichut, governor of Strassburg, killed Charles Ortollo, the governor's man servant, and wounded the man cook.

By January 1928, the Department of Health will have 20 physicians in European cities inspecting immigrants who are about to leave for Canada. The department expects by this new policy to relieve the difficulties at Canadian ports.

All that has been recovered of the giant monoplane, Old Glory, lost with its three occupants in an unsuccessful attempt to fly to Rome is contained in a small pine box 8 x 8 x 4. The wreckage, consisting of tangled wire, a wheel of the landing gear and three battered gas-tanks, was found by the steamer Kyle, 659 miles off Newfoundland.

Why Hobble Along On Sore Corns?

Don't cut corns with an old razor. Infection followed often by death may result from paring corns with an infected knife. Quick, safe relief comes from using Putnam's Corn Extractor. If afflicted with corns, calluses or sore footlumps, use "Putnam's"—It's reliable and sure to shrivel up the corns so they drop right off. No pain, no soreness, but quick relief from sore corns comes to all who use Putnam's Painless Corn Extractor, 25c. at all dealers.

A Smart New Coat

The coat pictured here is an unusually smart design as well as being practical and comfortable. There is a seam at the centre back, a large convertible collar, wide cuffs, and two set-in pockets with flaps. The life of contrasting or matching material is decidedly chic, and buttons make an attractive trimming. Fur may be added to the collar and cuffs, thereby adding warmth for cooler days. No. 1653 is in sizes 34, 36, 38, 40, 42 and 44 inches bust. Size 36 requires 4 1/2 yards 36-inch, or 3 yards 54-inch material, and 3 1/2 yards 36-inch lining. Price 20 cents the pattern.

Minard's Liniment for Toothache

The brisk, pungent taste of Red Rose Tea is kept at its best in the bright, sanitary aluminum package. You will never find now the flat, stale taste which is so often complained of in tea packed in inferior containers. 67

Airplane Service in Hawaii
What promises to be a forerunner of commercial aviation in Hawaii is the establishment of an airplane service for visitors who desire to see the islands from the air. Regular flights are made over the various islands.

Babies Cry For "Castoria"

Prepared Especially for Infants and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 30 years as a pleasant, harmless substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups. Contains no narcotics. Proven directions are on each package. Physicians everywhere recommend it.

The genuine bears signature of

Wm. H. Fletcher.

Cost Of Bushel Of Wheat

United States show that the highest cost of producing a bushel of wheat in North America was at a town in Minnesota; the cost was \$2.23. The lowest cost was at the home town of ex-Premier Greenfield, in the Peace River; the cost was 51 cents.

Good-bye Asthma. Persons suffering from that extremely trying trouble known as asthma know what it is to long with all their hearts for escape as from a tyrant. Never do they know when an attack may come and they know that to struggle unaided is vain. With Dr. J. D. Kellogg's Asthma Remedy at hand, however, they can say good-bye to their enemy and enjoy life again. It helps at once.

Transfer of world interest from China to Russia doesn't help the proof-readers much.

The Oil For the Farmer. A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should-always be a bottle of it in the house.

Conceit is deceptive, but it is rarely perceptive.

Newspaper Association Executive

S. J. Dornan, Alameda, secretary-treasurer of Saskatchewan Weekly Newspaper Association.

Newspaper Men Foregather

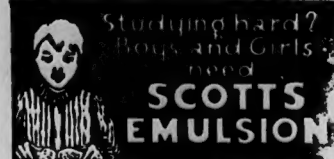

Eleventh Annual Convention of Saskatchewan Weekly Newspaper Association

Regina.—In point of attendance and in general enthusiasm the eleventh annual convention of the Saskatchewan Division of the Canadian Weekly Newspaper Association was the most successful gathering of the organization yet held. Organized in 1916, the Association has been steadily increasing in strength, and now is able to boast of a membership of one hundred per cent. No small amount of credit for this success is due to the untiring work of the energetic secretary, S. J. Dornan, of Alameda.

The sessions were held in the Hotel Saskatchewan, where excellent accommodation was provided for the holding of meetings as well as for entertainment. Regina was unanimously chosen as the meeting place for the 1928 convention.

On Thursday a luncheon as given by the Regina Board of Trade, and a dinner was tendered by the Saskatchewan Government, after which the delegates were the guests of the Toronto Type Foundry Co., at a theatre party. The Saskatchewan Wheat Pool management gave a luncheon on Friday and on Friday evening the Weekly Newspaper Association were hosts at a dinner, at which the president-elect, Mr. McCullough, of Weyburn, presided.

Officers were elected for the coming year as follows: T. H. McCullough, Weyburn, president; Hon. President, Hon. S. J. Lalla; Hon. Vice-President C. R. McIntosh, M.P., North

Battleford; vice-president, S. J. Moore, Swift Current; secretary-treasurer, S. J. Dornan, Alameda; Executive: E. Garrett, Watrous; N. Wynne, Yorkton; G. W. Smith, Wood, Kinistino; T. E. Sriver, Wolsley; H. G. Sheldrake, North Battleford, and C. J. Ailbon, Asquith.

S. N. Wynne, Yorkton, recently elected president of the Canadian Association, was the speaker at Thursday afternoon's session. During the course of his remarks, Mr. Wynne read an extract from the report of the British Columbia Association in which a strong tribute was paid to the Saskatchewan division.

The person who walked across the street was once called a pedestrian. Now, unless he moves pretty smartly, he is often referred to as "the deceased."

Neuralgia

The maddening pain will succumb to applications of Minard's.

DYEING AND TINTING

COPYRIGHT, CANADA, 1925

CHAPTER IX.—Continued

"Shut up, Rose—they'll hear us!"
"Hear nothing! He's dead—dead—the best man God's sun ever shone on—murder—murder—murder!" Rose wrung her hands dramatically in imitation of Mrs. Wymuth, while the girls choked with laughter. Then she cackled round the room, singing "I'm a little wrinkled prune. I am not stewed yet but will be soon."

Minnie held her letter rapturously in her hands. She could not open it before the girls. Waffling her chance she stole out into the long, uncarpeted hall, where she ran along in her bare feet until she reached the linen closet. There she found the switch and turned on the light, trembling with excitement.

A great cry broke from Minnie's lips as she read—a cry of joy—her mother loved her still, loved and believed in her and would stand by her to the end. There was a dollar bill in the letter, and a whole row of kisses, and many a word of loving comfort. Minnie ran back to get Helmi, who was showing the girls what had happened. Her English had deserted her, but she shook Rose Lamb to show what had provoked her assault, and then showed with a menacing gesture how her hand had dealt the blow. The girls were deliciously thrilled and shivered with delight.

The sight of Minnie's radiant face recalled Helmi, and she followed her down the hall, where Minnie threw her arms around her, sobbing with joy.

"It's all right, Helmi! My mother knows. She is sorry but says I must not worry now. And it ends. 'God bless my poor little girl.'"

"That is good words," said Helmi gravely, "and I'm glad I got it for you. Will you read my letters?"

Helmi's letters were from the girls of the Club and one from Miss Rodgers. Lucy Powers wrote: "Dear Helmi:—We are at our supper to night and are thinking of you, we hope you are well and happy, too. We have developed potatoes and salad, and rice pudding with a seab on top that helps some. Mildred has a beau, but she won't tell who he is, and

maybe she don't know, but anyway, we are teasing her, and Miss Rodgers says for you to read page eleven in the Blue and Gold Book, and you'll see what the little verse is we are learning today—it's the 'Upward Road,' and you can just think you are with us. Miss Rodgers will write, and we want a letter from you to read at our meeting. We have them from all absent members. Lily is at the Coast and Eula is in California still, and Maud has gone to school. Miss Rodgers says you will be locked in at night, for she knows Miss de Forest, who used to teach there. We often go riding now in the car, and I guess that is all. We all wish you were back.

"Your Loving Friend,
Lucy.

Helmi understood it when it had been read over again, and in her heart there was a joy of knowing that though she was in prison, someone was thinking of her, and someone wished she was again at liberty. Her gang were loyal to her!

Then came Miss Rodgers' letter, smelling faintly of lavender:

"My Dear Helmi:—Tonight we are meeting in the church, and we are all thinking of you, and when we knelt in our first prayer we had a few minutes when we all just prayed for you, and the girls said, 'Keep Helmi from evil—keep Helmi cheerful—let her learn English fast—and let her help someone every day—and keep hatred out of her heart.' I wrote them down so I could tell you, and then we prayed together. 'Dear Lord, do not let Helmi ever forget that she is dear to Thee.' We know, dear Helmi, that you will always be pure and brave, and God will not fail you. Work hard at your English, and do not fret if your surroundings are not cheerful. Make the best of them, remember the way to be happy is to help someone else. I am enclosing some stamps and paper. Write to me, or get some of the girls to write. Miss de Forest is living with me now, and she too wants to hear from you.

"Ever lovingly your friend,

Edna Rodgers."

Helmi's eyes were shining when the letters were read. Miss Rodgers, Miss de Forest, her two friends! She was not alone, not a prisoner, not in disgrace—her friends loved her. Surely it could not have been wrong to steal the keys—she would write to Miss Rodgers and ask her. Maybe the Blue and Gold Book could tell. She and Minnie with her arms entwined were sitting on a pile of blankets. Helmi ran back to her little red valise to get the oracle. Minnie turned to the page Lucy had mentioned and read the memory verse:

"I will follow the upward road today,
I will keep my face to the light;
I will think high thoughts as I go
my way
I will do what I know is right,
I will look for the flowers by the side
of the road,
I will laugh and love and be strong;
I will try to lighten another's load
This day as I fare along."

Minnie explained it to her. "See, Helmi, you've done all these. You lightened my load when you got my letter for me, ain't that so?"

Helmi nodded; that part was all right, but she was worried about Mr. Wymuth. Would page eleven throw any light on that? Would the Blue and Gold Book sustain her in knocking down the Superintendent of the Girls' Friendly Home?—that was the question.

Minnie searched the book again, going over each line. "No, it wasn't exactly 'looking for flowers by the side of the road'—but look here:

"I will laugh, and love and be strong."

"Helmi!" cried Minnie. "It's here! You were strong when you hit him—that covers it, Helmi, ain't you glad?"

Helmi took the book and followed the line with her finger. "I sure was strong," she said.

The house was silent—so still it seemed as if its heart had stopped beating. Helmi's mind was not altogether at rest over what she had done, alternating between the exaltation that the letters from her friends had brought her, the happiness that had come to poor little troubled Minnie, the assurance of the Blue Book, and a deep sorrow for what she had done. Was it a very terrible thing? she wondered. She recalled the sudden rage that ran like fire through her veins when Mr. Wymuth had shaken her. Should she have just borne it and made no resistance? She would get Minnie to write it all to Miss Rodgers and Miss de Forrest. They would know. When she shut her eyes she could see the blood spreading on Mr. Wymuth's pale cheek, and hear again Mrs. Wymuth's queer words, and the glass crashing, and splintering. She was sorry for that, and would write to Miss Abbie about breaking the glass. Miss Abbie would pay the damages.

The glass should be gathered up—glass was sharp to walk on and made quick cuts in feet. Helmi slipped stealthily from her bed. The girls were all sleeping now. Noiselessly she went down stairs and into the dining room, closing the door before she switched on the light. The chair which Mr. Wymuth had fallen against still lay on its side. Helmi lifted it up and set the room to rights. Then she began to pick up the pieces of glass, very careful to make no noise. At the blood-stains on the floor she shuddered—it was surely a dreadful thing to shed blood; she hoped Mr. Wymuth was not badly hurt.

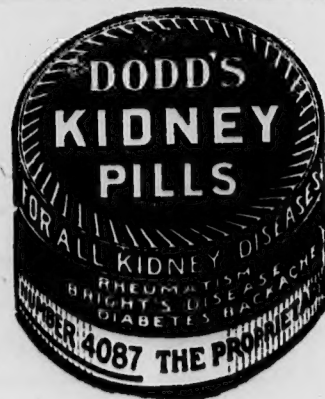

Try as she would, Helmi could not make herself feel very sorry. The exquisite thrill of power which she felt when she saw him thrown from her was still like wine—it was glorious! Helmi could have written a psalm of elation! "Now is my head lifted up above my enemies . . . they are as chaff that the wind driveth away. . . . Thou preparest a table before me." She wanted to sing; to march; to dance. Suppose they did punish her, beat her, shut her in a dark room on bread and water like they had already done to Rose Lamb, she could bear it. She had the memory of this glorious victory, the joy of stealing the keys—and best of all, her letters.

Helmi turned the light out when her work was done, but lingered at the window to watch the city below, with its myriads of twinkling lights, row upon row, making weirdly fantastic figures as she watched them. She loved the city with its mellow hum of tramping feet, its purring autos and clanging, raged train whistles, that seemed to rise in ever widening circles of sound. She loved to listen to the murmur that rose and fell, swelled and lessened. Something coming—coming—louder—louder—bursting—passing—fading—gone. The sleepless, restless, shifting city! She loved it; she was part of it. Away over there, where the reflection of big lights painted in sky, she had friends. There were people who thought of her and would be glad to see her. Helmi loved it; it was her city!

(To Be Continued.)

New Varieties Of Apple

Apples are Canada's leading commercial product in fruit. Since 1888 when seed was imported from Riga, on the Baltic Sea, continuous efforts have been made to originate new and better varieties of apple for Canada. In a recent report of the Horticultural Division of the Dominion Experimental Farms, descriptions of 18 new varieties named during 1925 are supplied.

Was Taken As Security

Valuable Diamond Ring Found In Hotel Safe After Fifteen Years

Searching an old safe in the Queen's Hotel, Toronto, before offering it at auction, Thomas Jenkins found among a number of old papers, a three-stone diamond ring that has been lost for more than 15 years. The ring will be sold and the proceeds will go to the McGaw and Winnell estates.

Years ago the ring was taken as security for a debt from a guest of the hotel when he was leaving without funds to meet his account. Shortly afterwards the old safe was abandoned, and when the ring was searched for later it could not be found.

The ring has three high-grade diamonds, each weighing more than a carat, and at present prices has a value of about \$950, it is estimated.

A FAMILY MEDICINE

A Welland Lady Tells Of the Value Of Dr. Williams' Pink Pills In Her Home

"I have many reasons for praising Dr. Williams' Pink Pills," says Mrs. George L. Swick, R.R. No. 2, Welland, Ont. "My first experience with this medicine was in my girlhood, when, following an attack of scarlet fever, I was left in a badly run down condition and the pills restored me to good health. Later in my married life I had a severe attack of rheumatism. The pain in my right arm and shoulder was so bad that I could not dress myself without help. Again I resorted to Dr. Williams' Pink Pills, and again they proved a blessing to me, as soon the rheumatic pains and stiffness disappeared and there has been no return of the trouble. Dr. Williams' Pink Pills have also been of great benefit to my children. One of my boys was threatened with St. Vitus dance. His limbs and face would twitch and jerk. I gave him the pills, and again they did not fail, as under the treatment the trouble ceased. I have also given the pills to my little girl, who was anaemic, and in this case also with the greatest benefit. Naturally when I hear anyone complaining of not feeling well I recommend Dr. Williams' Pink Pills as I know of no other medicine to equal them in building up the blood and restoring health."

Take Dr. Williams' Pink Pills for anaemia, rheumatism, indigestion, neuralgia and other nervous troubles. Take them as a tonic if you are not in the best physical condition, and cultivate a resistance that will keep you well and strong. You can get these pills from any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Preserving India's Sacred Trees

Huge Banyans Are Principal Attraction At Royal Botanical Garden

One of the attractions of the Royal Botanical Garden at Sibpur, India, is its huge banyan trees. One of the largest of these trees has had to undergo a surgical operation for fungus growths. The present age of the tree is about 158 years, but according to Dr. King, the superintendent, it is much older. The circumference of the trunk, in 1923, at a height of about 5 1/2 feet, was about 51 feet, the crown about 1,000 feet, and the number of aerial roots about 601, which are actually rooted down in the ground.

It is a pity that the main trunk was rotten and had to be cut down, leaving a wide gap at the centre. The dome-shaped outline of the tree from a distance presents a grand picture. The tree is religiously regarded by the Hindus, and gives shade to many weary visitors, specially during the hot months of May and June. The "bar" is called banyan as it used to give shelter to the merchants (Banyas or Banis) during the old days, when there were no railways and other arrangements for transporting goods.

Attempts are being made to keep this oldest tree of the Royal Botanical Garden alive by removing the infected branches, and by aerating the aerial roots and manuring. A few young plants have been planted to fill up the gap at the centre, and efforts will be made to graft the branches of the new plants to the older ones. The ground under the tree is being raised to keep off the floods during the rains and thus protecting the aerial roots from being waterlogged.

Made Of Good Stuff

A dollar watch which had been imbedded in solid concrete for 12 years was discovered by a workman employed on a bridge gang at Iola, Kansas. It was exposed when a block of concrete was broken in two and began ticking as soon as it was wound.

Relieves Sore Throat—Minard's Liment.

Children's Colds

Best Treated Externally

That's why modern mothers prefer Vicks—it cannot upset delicate stomachs. Rubbed on throat and chest, it acts two ways at once:

- (1) Its healing vapors, released by the body heat, are inhaled direct to the air passages;
- (2) It "draws out" the soreness like an old-fashioned poultice.

VAPORUB
OVER 17 MILLION JARS USED YEARLY

Little Helps For This Week

I have chosen thee in the furnace of affliction. —Isaiah xlviii. 10.

Who watched the artist paint a porcelain cup

Did wonder when he gathered brushes up.

And said, "My task is done,"

That on the top's fine rim,

A border black and grim.

Contrasted hatefully with gentle tint

Of pink and azure, blond and berry hint.

And mocked those threads of sun,

That made the cup a prize

To lavish royal eyes.

"Why leave this bowl of black?" one dared inquire.

The artist answered, "Clay must taste the fire."

And by that test he tried."

Snatched from the furnace heat.

Transfigured and complete,

The dazzling gift comes crowned with aureole gleam,

Its black all changed to gold. So, like a dream,

Heart said to heart that sighed.

Grief may be joy at last.

When life's fierce test has passed.

The child of God is assured that

all things work together for good; in

this is plainly included the pledge

that chastisements and afflictions

shall eventually prove a blessing.

—J. W. Alexander.

**CHOLERA, CRAMPS,
PAINS IN THE STOMACH
RELIEVED BY**

Mrs. D. Leavitt, Back Bay, N.B., writes:—"Last summer my children were very ill with cholera and suffered severely from cramps and pains in their stomachs. I tried several remedies, but nothing seemed to do them any good. A friend of mine told me to try Dr. Fowler's Extract of Wild Strawberry. I got a bottle and gave them a few doses and they soon found relief. Now I will never be without it in the summer months."

Don't Accept a Substitute

This preparation has been on the market for 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

The figure 3854 is a mysterious one. For instance, add the following: Year of your birth, your age, year of your marriage, number of years married—result, 3854. Always.

PIMPLES ON FACE 6 MONTHS

Itching and Burning Severe. Cuticura Heals.

"I had pimples on my face for about six months. They were hard, large and red and scaled over. The itching and burning were so severe that I could not keep from scratching the eruptions, which became quite sore. My face looked so bad that I was ashamed."

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. It helped me so much that I purchased more, and after using six cakes of Cuticura Soap and three boxes of Cuticura Ointment I was completely healed." (Signed) Mrs. Dill, Box 9, Viceroy, Sask., Nov. 6, 1926.

Give Cuticura Soap and Ointment the care of your skin.

Sample Each Free by Mail. Address Canadian Agent, "Cuticura, Ltd., Montreal." Price, Soap Box, Ointment 25 and 50c. Talcum 25c. Cuticura Shaving Stick 25c.

THEY SUFFER NO MORE

Two Women Owe Health to Lydia E. Pinkham's Vegetable Compound

St. Adolphe, Manitoba.—"I was very weak and had great pains during my periods so that I could not sweep the floor. The pains were in the right side and extended to the left and then downwards. It seemed as if the body was heavy and upside down. It is for these troubles I took the Vegetable Compound."

I saw about it in a paper and one woman prevailed on me to take it. It has helped me in every way, the pains are less, and I have more appetite. It is a pleasure to recommend Lydia E. Pinkham's Vegetable Compound to other women."—Mrs. J. L. COURCHANE, St. Adolphe, Manitoba.

Found Great Relief

Toronto, Ont.—"I am at the Change of Life with hot flashes, dizziness, weakness and nervousness. I had head noises and was short of breath. I was this way about six months when I read about Lydia E. Pinkham's Vegetable Compound in the newspapers. I have taken eight bottles so far and found great relief."—Mrs. R. J. SAMMON, 112 Lawlor Ave., Toronto, Ont.

(Copy of Agreement)

Dated September A.D. 1927

THE TOWN OF DIDSBURY — AND — CALGARY POWER CO. LTD.

Bylaw No. —

A by-law to authorize the Mayor and Secretary-Treasurer of the Town
 of Didsbury to sign and execute on behalf of the Town certain Agreements
 between the Town and Calgary Power Company, Limited.

Whereas the existing electric generating system of the said Town is
 partially obsolete.

AND whereas Calgary Power Company, Limited, contemplates extending
 its hydro-electric transmission lines to the vicinity of the Town in the year
 1928 and intends to be in a position to supply electric light and power to the
 said Town and the inhabitants thereof on or before the first day of Septem-
 ber, A. D. 1928 and has submitted to the Council of the said Town, agree-
 ments pertaining thereto.

AND whereas it is deemed advisable by the said Council that the said
 agreements should be ratified and confirmed and that they should be executed
 by and on behalf of the said Town.

NOW THEREFORE the Council of The Town of Didsbury Enacts as
 follows:

1. That the said agreement, a copy of which is set forth in the Schedule
 1 hereto annexed, be and the same is hereby ratified and confirmed and the
 Mayor and Secretary-Treasurer of the said Town are hereby authorized to
 sign and execute the said agreement for and on behalf of the said Town and
 the Secretary-Treasurer is hereby authorized to affix thereto the Official Seal
 of the said Town.

2. That the said Agreement as set forth in the said Schedule 1 is hereby
 embodied in and made part of this by-law.

3. That the Council of the said Town shall appropriate and set aside the
 moneys to be received by it pursuant to the said agreement to pay the out-
 standing debentures of the said Town relating to the said Town's electric
 generating and distributing system as and when the same shall become due
 and payable or to purchase and retire such debentures as and when they may
 be acquired by the said Town on such terms as the Council of the said Town
 may deem reasonable and satisfactory. The said sum so appropriated or the
 remainder thereof from time to time shall, until required for the purpose of
 meeting such debenture payments, be invested by the said Council in Bonds
 of the Dominion of Canada or of the Province of Alberta, or other Bonds as
 may be acceptable to the Board of Public Utility Commissioners of the Pro-
 vince of Alberta.

4. That the Council of the said Town shall and it is hereby authorized
 to, sell and dispose of, as it may deem fit, the said Town's electric generating
 system, when it is no longer required by reason of the said agreement set
 forth in Schedule 1 coming into full force and effect and that the proceeds of
 such sale or disposition shall be appropriated and applied in the same man-
 ner as provided in paragraph 3 of this by-law for the appropriation and
 application of the moneys therein referred to so far as the same may be
 required for that purpose and that any surplus be devoted by the Council of
 the said Town to such Municipal purposes as the Council of the said Town
 may deem advisable and in the best interests of the Town.

5. That the option agreement, a copy of which is set forth in the
 Schedule X hereto annexed, be and the same is hereby ratified and confirmed
 and the Mayor and Secretary-Treasurer of the said Town are hereby author-
 ized to sign and execute the said agreement for and on behalf of the said
 Town and the Secretary-Treasurer is hereby authorized to affix thereto the
 Official Seal of the said Town.

DATED at DIDSBURY this _____ day of _____

MAYOR.

SECRETARY-TREASURER.

THIS IS SCHEDULE "I" REFERRED TO IN THE FOREGOING BY-LAW.

SCHEDULE "A"

THIS AGREEMENT made this _____ day of _____

A. D. 1927.
 THE TOWN OF DIDSBURY, a municipal corporation under
 and by virtue of the Town Act of the Province of Alberta,
 hereinafter call the "Town",

OF THE FIRST PART,

CALGARY POWER COMPANY, LIMITED, whose Head Office
 is at the City of Montreal, in the Province of Quebec, here-
 inafter called the "Company",

OF THE SECOND PART.

WITNESSETH that the Parties hereto hereby mutually covenant, prom-
 ise and agree each with the other as follows:

1. The Town shall sell to the Company and the Company shall pur-
 chase from the Town, all the entire electric distribution system of the Town
 consisting of, without restricting the generality of the foregoing, all poles,
 fixtures, wires, transformers and meters in or upon the streets, alleys, pri-
 vate or public buildings or other locations within the Town and owned by the
 Town and also all supplies, spare parts, meters, transformers, tools and ware-
 house contents, wire and poles acquired by the Town for use in connection
 with the said electric distribution system, the Company paying therefor to
 the Town in respect thereof the sum of Eight Thousand Dollars which shall
 be paid in cash upon the execution of this agreement (the receipt whereof
 is hereby acknowledged by the Town).

2. The Town hereby grants to the Company, subject to all of the terms,
 covenants and provisions herein contained, the sole and exclusive right, license
 and privilege for a term or period of ten (10) years from the date of this
 agreement to erect, construct, establish, maintain, repair and operate a suit-
 able electric light and electric power distribution system within the limits of
 the Town as at present constituted or as they may from time to time be
 extended and to supply, sell and dispose of electric light and electric power
 for lighting, heating, power and any and all other purposes for which elec-
 tricity is or may be or become suitable or adaptable, to the Town and its
 inhabitants including the inhabitants of any area or areas which may here-
 after be added to and incorporated with the Town, and the Town hereby
 grants to the Company the license and privilege at all times during the said
 period of ten years to enter, and it is hereby authorized to enter, into and
 upon any and all streets, lanes, alleys, thoroughfares, squares and public
 places of the Town as to the Company shall seem necessary and to erect
 therein and thereon and to establish a complete electric power transmission
 and distribution system, including poles, wires, conduits, cables and all other
 works and appliances in connection with or forming, or intended to form part
 of such system, for supplying electric light and electric power to the Town
 and its inhabitants for lighting, heating, power and other purposes and to
 repair and maintain the same.

3. The Company will before proceeding with the construction, recon-
 struction, extension or alteration of any of its distribution system submit
 plans therefor to the Council of the Town and shall obtain the approval of
 the Council to such plans and will where reasonably possible and convenient
 construct, erect and lay its poles, wires, conduits, and cables through and
 along lanes in preference to streets and avenues.

4. When the Company at any time commences any work on any street,
 lane or other public place in the Town in the way of constructing, extending,
 repairing or maintaining its said distribution system it shall complete the
 said work with all convenient speed and upon the completion thereof shall
 restore the said street, lane or other place to a proper and efficient state of
 repair equal in all respects as nearly as may be to the condition of repair
 in which the same was immediately prior to the commencement of such
 work, and on default by the Company the Town may undertake such restora-
 tion work and the Company shall be liable for the cost thereof.

5. The Company shall on or before the first day of September, A. D.
 1928 complete the construction of an electric power transmission line to the
 Town and shall from and after the completion of the construction of the said
 power transmission line furnish adequate electric current to the Town and
 its inhabitants in accordance with the terms of this agreement.

It being understood and agreed by and between the Parties hereto that
 as and from the date of this agreement the Company shall enjoy the exclu-
 sive electric franchise rights hereby granted and shall until the completion
 of its said electric power transmission line to the Town operate, rent free,
 but at its (the company's) own expense the Town's steam electric generating
 system and shall supply the Town and its inhabitants with electric light
 and power at the schedule of rates and prices that prevailed in the Town on
 the first day of September, A. D. 1927 and the Company shall from the date

of this agreement be liable and responsible for the supply of electric light
 and power to the Town and inhabitants, PROVIDED, HOWEVER, that until
 the time of the completion of its said electric power transmission line to the
 Town or until the first day of September, A. D. 1928, whichever date shall
 be first, the Company shall only be required to furnish electric light and
 power to the Town and its inhabitants under the same conditions and at
 such times as was usual for the Town itself to supply, prior to the execution
 hereof.

Provided further and it is understood and agreed by and between the
 Parties hereto that upon the completion of its hydro-electric transmission
 lines to the Town or on the first day of September, A. D. 1928, whichever
 shall be first the Company shall forthwith put into force and charge only such
 rates as are set forth in paragraph 12 of this agreement and shall thereafter
 furnish the continuous electric light and power service called for by this
 agreement and the Company shall on not later than the first day of Septem-
 ber, A. D. 1928 redeliver possession to the Town its (the Town's) steam
 electric generating system in as good condition and repair as when it took
 charge of the same, reasonable wear and tear only excepted, and on the said
 date all the terms and conditions of this agreement shall become of full force
 and effect.

6. The Power transmission line to be constructed by the Company shall
 have sufficient capacity to supply at all times and continuously in the forms
 herein provided, and the Company shall from the said date of the completion
 of the said power transmission line and during the currency of this agree-
 ment and any extensions thereof supply at all times and continuously and in
 the forms herein provided the electric energy required and demanded by the
 Town as extended from time to time and the inhabitants thereof for light,
 heat and power. From time to time as the consumption of electric energy in
 the Town by the Town and its inhabitants indicates that the capacity of the
 power line and the power supplied by the Company requires to be increased
 so as to furnish adequate and efficient service, the Company shall by altera-
 tions or additions or otherwise as may be necessary increase its capacity for
 and deliver electric energy so as to render at all times an efficient and un-
 interrupted service, subject only to interruption by inevitable accident or act
 of God or other matter beyond the control of the Company. Provided that
 notwithstanding any such interruption the Company shall without undue
 delay install such plant and machinery as may be necessary to furnish the
 service required hereby.

7. The Company shall supply to the Town and its inhabitants the elec-
 tric energy required as aforesaid in the following forms, namely:

(a) For lighting and heating purposes, and for use in small motors, in
 the form of a single-phase alternating current at 110 volts, two wires, and
 at 110 and 220 volts, three wires and at a normal frequency of 60 cycles
 per second.

(b) For power purposes in the form of three-phase alternating current
 at 220 volts, or such other standard voltage as may be required and is reason-
 ably justified by any installation, and at a normal frequency of 60 cycles
 per second.

(c) For street lighting purposes in the form of constant alternating cur-
 rent of approximately 6.6 amperes, and at a normal frequency of 60 cycles
 per second, or a multiple system at approximately 110 volts, at the option
 of the Company.

(d) The general variation in the voltages specified in sub-sections (a)
 and (b) of this clause shall not exceed six (6%) per cent. above or below
 the specified figures, and the general variation in frequency shall not exceed
 one (1%) per cent. above or below the specified figures.

8. In all cases the Town may for any reasonable purposes make use of
 the poles of the Company for municipal purposes so long as the use thereof
 by the Company is not interfered with, and any extra or additional cross-
 arms, insulators or other fixtures required by reason of the use of the said
 poles by the Town shall be supplied and erected at the expense of the Town,
 the Town covenanting and agreeing to be responsible, for and to indemnify
 the Company against any loss, damage or injury suffered by or recovered
 from the Company as the direct or indirect result of the said use of the said
 poles by the Town.

9. In the event of the destruction of or any damage to the plant or
 equipment of the Company or any part thereof, the Company shall forthwith
 repair and make good such damage in order that the interruption of the serv-
 ice of supplying light and power to the Town and the inhabitants thereof
 may be terminated with the minimum delay and in the event of the company
 finding it necessary at any time to cut off its supply of electric energy for
 the purpose of making repairs to its power line or plant, it shall give to the
 Town and the inhabitants thereof ample notice of such necessary interruption
 of service and such repairs shall be undertaken and made by the Company
 in such manner and at such time as to cause a minimum of inconvenience to
 the Town and its inhabitants and for such purpose, wherever possible, such
 repairs shall be made on holidays and at times when current is not required
 for power purposes.

10. The Town agrees to purchase from the Company and the Company
 agrees to sell to the Town during the period of this agreement and any exten-
 sion thereof all electric light and electric power to be used by it for munic-
 ipal purposes, except street lighting, at the prices and upon the terms herein
 provided for the supplying of light and power to other consumers in the
 Town.

11. The Company shall at all times during the period of this agreement
 and any extension thereof maintain and keep in good repair and proper
 working order a complete system of street lighting for the Town including
 the replacement of lamps. The Company shall furnish an all night street
 lighting service, maintaining all the present street lights or lamps and such
 additional street lights or lamps as the Town may from time to time demand
 for which street lighting, the Town shall pay to the Company at the follow-
 ing rates:

Each lamp not exceeding 250 candlepower.....\$3.00 per month.

Each lamp not exceeding 400 candlepower.....\$3.90 per month.

Each lamp not exceeding 600 candlepower.....\$5.10 per month.

Provided that in the event of any additional street lights being required by
 the Town involving an extension of the then existing street lighting system
 greater than 250 feet for each additional lamp the Town shall pay to the
 Company an additional charge of 25c per month for each additional pole
 installed in excess of 250 feet per lamp until such time as the installation of
 additional lamps on such extension shall reduce the average distance between
 the lamps in such extension to 250 feet or less. Provided that the number
 of street lights shall not at any time be less than fifteen (15).

12. The maximum rates or prices which the Company shall exact from
 or charge to consumers of light, heat and power in the Town during the term
 of this agreement or any extension thereof shall be as follows:

For Domestic Service:

Available only for lighting, heating, cooking, domestic power and other
 uses in houses and apartments used exclusively for residential purposes.

A service charge of \$0.80 per month.

The first 30 kilowatt-hours, per month, 10c per kilowatt-hour.

The next 20 kilowatt-hours, per month, 10c per two kilowatt-hours.

All over 50 kilowatt-hours, per month, 10c per three kilowatt-hours.

With a minimum charge, including the service charge of \$1.50 net, \$1.80
 gross, per month.

For Commercial Service:

Available only for all purposes where other rates do not apply.

A service charge of \$0.80 per month for the first 500 watts of installed
 capacity and 30c per month for each additional 250 watts of installed
 capacity.

First 100 hours' use of installed capacity, 10c per kilowatt-hour.

All over 100 hours' use of installed capacity, 10c per two kilowatt-hours.
 With a minimum charge, including service charge of \$1.50 net, \$1.80 gross,
 per month.

For Alternating Current Power Service:

Service charge of \$1.00 per month per kilo volt ampere (K. V. A.) of
 installation (one K. V. A. to be considered equivalent to 1 motor horse power
 or 1 kilowatt in electrical heating apparatus).

First 100 kilowatt-hours, per month per K. V. A. of installation, 10c for
 two kilowatt-hours.

All over 100 kilowatt-hours and up to 200 kilowatt-hours, per month per
 K. V. A. of installation, 10c for three kilowatt-hours.

All over 200 kilowatt-hours per month per K. V. A. of installation, 10c
 for six kilowatt-hours. With a minimum, including service charge of \$3.00
 net, \$3.30 gross, per month.

Provided that when the total revenue derived by the Company from the
 sale of electricity to the Town and to consumers within the limits of the
 Town as it now exists or may be hereafter extended exceeds for any calendar
 year the sum of \$12,000, the service charge for the next succeeding calendar
 year and thereafter shall be reduced by the sum of 10c per month to each
 domestic and commercial consumer and thereafter for each additional increase
 of \$1,000.00 in such total revenue per calendar year there shall be a further
 reduction of 10c per month on the service charge to domestic and commercial
 consumers until such service charge has been reduced to 50c per such con-
 sumer per month.

Provided that should such total revenue exceed the sum of \$10,000.00 for
 the first year of the Company's operations under this agreement the fore-
 going provision shall be retroactive and the reduction shall be made in the
 service charge for such year and a corresponding rebate allowed to

WORLD HAPPENINGS BRIEFLY TOLD

Peter Verigin, the younger, has arrived from Russia, to assume leadership of the Doukhobors in Canada.

The Canadian Government has proposed to Poland "conclusion of a treaty of commerce and it is understood that negotiations will begin shortly."

Admiral Baron Sadahichi Kato, who commanded the Japanese fleet during the siege of Tsingtao, China, in the World War, is dead. He was a former chief of the Japanese naval board of education.

Dr. Edward Sapir, Canadian anthropologist, has been appointed to a full professorship at the University of Chicago, where he is in charge of the department of sociology and anthropology.

Five new commissioners for oaths have been appointed in Saskatchewan. They are: Peter Gross, St. Bonifaces; William H. Bruce, Kelsey; John F. MacLoughlin, Hildesheim; Hugh Ellis, Saskatoon; and Walter W. Robertson, Saskatoon.

The memorial to Lieut. Richard Douglas Sandford, V.C., who drove the submarine G3, loaded with 15 tons of high explosive, into the pile work of the mole at Zeebrugge and blew a breach 150 feet wide, has been unveiled on the mole in Belgium.

Commander Richard E. Byrd says that he plans to leave New York next August on his South Pole expedition and that Floyd Bennett, who accompanied him on his flight to the North Pole, would be second in command of the party.

More than 1,343,000 gross tons of shipping, consisting of 656 motorships and steamers and 182 sailing vessels of 100 tons or more, were lost, broken up or condemned throughout the world in 1920, according to the annual wreck statistics report of Lloyd's Register of shipping.

Definite announcement was made at Calgary, Alta., that the Russian government has renewed arrangements for purchasing 3,000 horses in Western Canada, including British Columbia. The animals will be of a higher standard than those shipped last year, and higher in price.

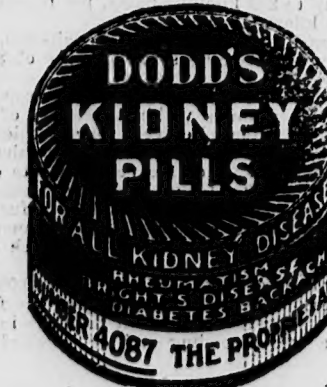

Homestead entries for the first five months of the present year in the four western provinces total 2,261, as against 2,341 for the corresponding five months of last year. Saskatchewan heads the list with 1,038 entries, followed by Alberta with 913, Manitoba with 275, and British Columbia with 37.

When Asthma Comes do not despair. Turn at once to the help effective—Dr. J. D. Kellogg's Asthma Remedy. This wonderful remedy will give you the aid you need so sorely. Choking ceases, breathing becomes natural and without effort. Others, thousands of them, have suffered as you suffer but have wisely turned to this famous remedy and ceased to suffer. Get a package this very day.

The highest railroad in the world is the Central Railway of Peru, which reaches an altitude of 15,681 feet and maintains a station of 15,665 feet.

Minard's Liniment for Asthma.

If the average man was as good as he thinks other men ought to be he wouldn't be long until his vanity made him top-heavy.

Beauties Of Natural World

People Who See Them More Than Fortunate Says Viscount Grey

"Of all the joys of life which may fairly come under the head of recreation there is nothing more great, more refreshing, more beneficial in the widest sense of the word than real love of the beauty of the world," writes Viscount Grey in "Fallodon Papers."

"Some people cannot feel it. To such people I can only say, as Turner once said to a lady who complained that she could not see sunsets as he painted them. 'Don't you wish you could, madam?' But to those who have some feeling that the natural world has beauty in it I would say, cultivate this feeling and encourage it in every way you can. Consider the seasons, the joy of the spring, the splendor of the summer, the sunset colors of the autumn, the delicate and graceful bareness of winter trees, the beauty of snow, the beauty of light upon water, what the old Greek called the smiling of the sea."

When we are bored, when we are out of tune, when we have little worries, it clears our feelings and changes our mood if we can get in touch with the beauty of the natural world."

Princess Enjoyed Joke

Princess Mary was among those who appreciated the joke when the band at a Manchester ceremony she was attending struck up the tune, "Let's all go to Mary's house." The Princess had just laid a foundation stone at Manchester Infirmary, and as she stepped down from the platform the song was played. At once some of the onlookers took up the refrain and sang lustily the words, "And let's have a real good time."

Big Land Deal

Negotiations for the sale of 6,000 acres of land in the Madisen district of Saskatchewan, 160 miles southwest of Saskatoon, were opened recently by the Canada Colonization Association, the purchasers being twenty Mennonite families, all in the Dominion but living in scattered districts.

A. Modish Frock

Charmingly graceful is this attractive frock, having a tulle at each side of the slightly flared skirt. The bodice has ruffles at the shoulders, a yoke and scalloped collar. The long sleeves are fitted, loose, or rather to wristbands, and a wide belt is finished with buttons at the front. No. 1651 is in sizes 36, 38, 40, 42 and 44 inches bust. If the dress is made of one material only, size 38 requires 3 1/2 yards 39-inch, or 3 1/2 yards 54-inch material. Views A and B, size 38, require 3 yards 39-inch, or 2 1/2 yards 54-inch material for the dress, and 1 1/2 yards 39-inch, or 1 1/2 yards 54-inch contrasting. Price 20 cents the pattern.

May Add Airplanes To Present Service

Master Said To Be Under Consideration By C. P. R. Officials

Is Canada about to adopt the airplane as a supplement to the transcontinental flyer, on a commercial scale? Are the day and night cross country trips to be cut in half or third, as at present over a considerable section of Western Europe? Is air-mail for the Dominion an early development?

Immediate steps in these directions seems to be indicated by the movement being made to urge the Canadian Pacific Railway to add an air branch to its present service which, it is said, is being pushed by Major-General J. H. MacBrien, former chief of staff, General MacBrien is at present provisional chairman of the Canadian Air League.

It is expected that MacBrien will be placed in charge of the railway's aerial department, if it materializes. He is himself a licensed air-pilot, having taken the course at Camp Borden a year or so ago, and, in addition, has made an intensive study of aeronautics.

MacBrien's plans, it is said, have been studied and endorsed by C.P.R. officials. The railway is sounding out the federal government to see if it is prepared to assist in the early heavy expenditures by means of subsidies.

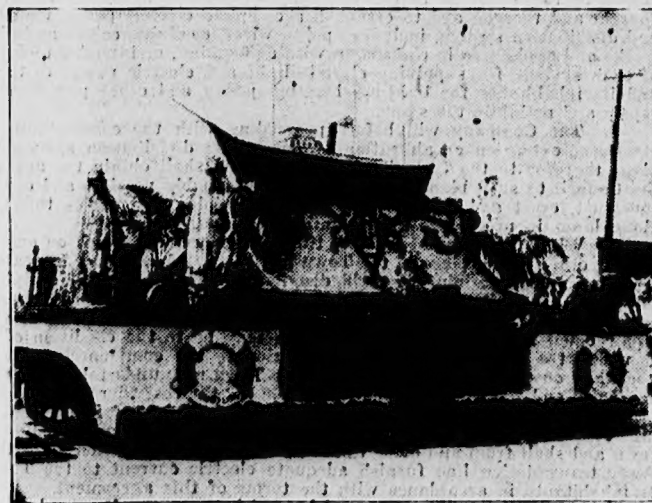

The announcement is being watched with the keenest interest, and there is much speculation as to whether the railway that was the pioneer in transcontinental development will also be a pioneer in this spectacular advance step for future transportation.

A Corrector of Pulmonary Troubles.—Many testimonials could be presented showing the great efficacy of Dr. Thomas' Electric Oil in correcting disorders of the respiratory processes, but the best testimonial is experience and the Oil is recommended to all who suffer from these disorders with the certainty that they will find relief. It will all inflammation in the bronchial tubes.

Donates Flying Ambulance

A flying ambulance for the isolated inhabitants of Lapland in Northern Sweden, has been donated by a Swedish railroad builder, on the occasion of his birthday. One aerial ambulance already has been maintained in Lapland for the last three years. From the frozen wastes, it has made many rescues, carrying patients to the military hospital at Boden, Sweden's chief stronghold on the edge of the Arctic zone.

For hunters of the south do not kill their quarry with firearms, but practice the hunt as do the English sportsmen.

FIRST CUNARD STEAMSHIP

This is an allegorical flag of the first Cunard steamship, the Britannia, which in 1840 made its maiden voyage from Liverpool to Halifax, and inaugurated the first steamship service across the Atlantic. This flag represented the Cunard Line in the recent pageant given before the prince, Premier and Mrs. Baldwin, at Ottawa, at the conclusion of the World's Poultry Congress. The pageant was held in honor of the delegates to the Congress, who came from all parts of the world.

Explanations and Comments

1. Elijah's Meeting With Ahab, verses 1-20.—After three years of severe famine in Samaria because of the drought, Ahab called Obadiah, his superintendent, and told him to go in search of water for their perishing horses and mules. He was met by Elijah, who ordered him to inform Ahab that rain was coming. Ahab came to meet Elijah. "Thou troubler of Israel!" were the king's angry words of greeting. Boldly Elijah retorted that the king was the real troubler of the nation, for he had forsaken the commandments of the Lord and had followed the gods of Jezebel.

"Thus even in ancient days the age-long dispute continued among contending factions assigning to one another the responsibility for evils among God's people. In Christ's day it was the charge of the Pharisees that he troubled Israel with teachings that were subversive of the traditions of the elders. With passing generations the expression of bigotry changes; the spirit of anti-Christian intolerance and bigotry, however, is constant. The most effective way to meet error is the restatement of truth. When 'loyalty to truth' finds expression in malicious attacks upon those holding different views, the object is frustrated."—Record of Christian Work.

Then Elijah ordered the king to assemble on Mount Carmel all the priests of Baal and of the Asherah. The king did the prophet's bidding.

Old Popular Pastime

May Be Revived

Throwing Horseshoes Not Expensive and Tests One's Skill

The good old game of throwing horseshoes is being revived and bids fair to become one of the most popular pastimes of the day.

Volunteers of the game will be interested to learn that the world's record for women was broken at Bloomington, Illinois, when Mrs. Lonham, former world's champion, pitched six consecutive double ringers, beating the former record of five and making an average of 833 points in one game.

The game of horseshoes is neither strenuous nor expensive, yet furnishes plenty of opportunity for testing one's skill and judgment along its own peculiar lines. So, if you are not in the golf class, try horseshoes.

Painless and perfect in their action, Miller's Worm Powders are always a safe and reliable remedy for children who show symptoms of worms. These symptoms are easily recognizable in a feverish restlessness, frequently ending in convulsions. A point of notable importance is that after Miller's Worm Powders have expelled the worms, the stomach and bowels are toned up into a very healthy condition.

Reaper-Thresher Machines

Reaper-thresher machines are being introduced throughout the Brandon district. One company carried over 54 machines from last year and brought in 275 additional this year, nearly all of which have been shipped out to farmers. The majority are going to Saskatchewan with a number to Alberta.

Why Suffer from HEMORRHOIDS? (Piles)

Quick and positive relief is available through the use of Anusol Suppositories.

Your physician will tell you that there is no safer or better non-surgical treatment for Piles. The best of surgical attention is often obviated through the healing effect of these remedial suppositories.

Half a century of success in the treatment of Hemorrhoids (Piles), is your assurance of good results. Ask your druggist. Or write us for one dozen, postpaid, \$1.00. Canadian & Foreign Agency Company, Ltd., 1155 Building, Montreal.

ANUSOL SUPPOSITORIES

Vastness Is An Asset

Canada Has Bridged Gaps That Were Obstacles To Nation-Building

In days gone by, Canada's vastness was a drawback and a liability. At one time it seemed almost impossible that a country of such widespread territory could be moulded along national lines. The terrible gaps between centres of population, the wilderness of the north country, the forbidding mountains of the far West, all loomed as obstacles to nation-building.

But the gaps were bridged, the wilderness pierced and the mountains crossed or tunneled. Canada's vastness is now an asset. In this great country, almost every natural resource may be found. And there is room for all our people and many millions more.

Some day, many wise thinkers believe, Canada will be the centre, the chief nation, of the British Commonwealth of Nations. Many stranger things have come to pass.

Device For Typing Music

New Machine Would Greatly Facilitate Work Of Composers

A machine by which composers will be able to type down their musical ideas in one or several copies, as easily as a letter is written by typewriter, has just been perfected by Lakes Viragh, a retired postal director. The model of the machine on which Mr. Viragh has been at work for three years, is constructed of wood and rubber, and should the manufactured machines prove as satisfactory as the model, the work of composers and those obliged to read manuscript music will be enormously facilitated.

Looks Like Extermination

The 4,000 sportsmen who made returns to Saskatchewan gamekeepers department last year secured a total bag of 100,000 ducks, 26,000 prairie chicken, 6,000 ruffed grouse, and 3,200 geese. In order to obtain some idea of the approximate bag of all hunters it is to be assumed that 12,000 who did not make returns secured the same average bags.

In the Woods

Hunters find Minard's an excellent remedy for sprains, cuts and wounds. Pack a bottle in your kit.

A BROKEN DOWN SYSTEM.

This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness, a breakdown, as it were, of the vital forces that sustain the system. No matter what may be its cause (they are almost numberless), its symptoms are much the same: the body becoming being sleepiness, sense of prostration or weariness, depression of spirits, and want of energy for all the ordinary affairs of life. Now, what one is absolutely essential in all such cases is increased vitality—vigor, vital strength and energy to throw off these morbid feelings, and as a right remedy the day this may be secured by a course of THE NEW FRENCH REMEDY.

THERAPION No. 3

It is by any other name a combination. Securely at its taken in accordance with the directions accompanying it, it will restore the exhausted THE EXHAUSTED LAMP OF LIFE. LIGHTED UP AGAIN. A new existence imparted in place of what had so lately seemed worn-out, used up and valueless. This wonderful medicine is available for all ages, constitutions and conditions, in either sex; and is difficult to imagine a disease or derangement to which it is not a remedy. It is a real tonic, that will not be speedily and permanently overcome by this recuperative power, but is destined to restore to health everything that has been lost. It is a wide-spread and numerous class of human ailments. Sold by leading Chemists, or direct from the manufacturer, The S. L. L. Co., 1155 Building, Montreal, P. Q., Canada.

consumers.

Provided that the service charge to all churches in the Town shall be in accordance with the domestic service rate, but the charge for energy consumed shall be in accordance with the commercial service rate.

All accounts other than for street lighting, shall be subject to a discount of 10% computed on the dollars thereof if paid within ten days from the time of rendering, the discount on all accounts under \$4.00 being 30c. All accounts shall be payable at such place or places in Didsbury as shall be designated by the Company.

The Company may, regardless of such rates, sell electric power to the Town and the consumers within the Town at rates lower than herein mentioned where the quantity of consumption, load factor or off peak condition warrants the Company in doing so and also for off peak heating, cooking and similar purposes, provided that there shall be no discrimination as between consumers where all conditions are similar and provided that in no case shall the minimum net bill be less than the minimum above specified.

13. In the event of the Company at any time hereafter granting any reduction in the rates now charged in the Towns and/or Villages on the Canadian Pacific Railway between Calgary and Edmonton in which the Company has a distribution franchise, or in the event of the Company hereafter entering into any agreement or agreements with any other towns or villages along the said railway between Calgary and Edmonton for the supplying of electricity under a franchise with rates lower than those herein provided, having regard to the quantity of consumption and other conditions, a corresponding reduction shall be made in the rates herein provided for the supplying of electricity to the Town and the inhabitants thereof.

14. In the event that the existing water rentals and (or) taxation for which the Company is liable be increased or that any new charges or taxes be imposed on the Company by any Act of the Parliament of Canada or the Legislature of the Province of Alberta, or by any Government Department either Dominion or Provincial, or by taxing authority whatsoever the foregoing rates, at the option of the Company, shall be increased commensurately.

Provided that this clause shall not operate so as to increase the rates charged to consumers in the Town unless there is a corresponding increase in the rates charged in the Towns and Villages mentioned or referred to in the next preceding paragraph hereof.

15. All meters shall be watt-hour meters and shall be supplied by the Company and no rental shall be charged to consumers therefor. Any such meter may be inspected by the Company or by the Consumer at any time, and may at any time, upon the request of the Consumer and after ten days' notice to the Company be tested or calibrated by the proper official delegated by the Department of Trade and Commerce of Canada. If such test shows that any meter is in error by more than 2% either way, then such meter shall be forthwith corrected or be replaced by one that is accurate. If a test made pursuant to notice from a consumer shows the error to be less than 2% the expense of such test shall be borne by the Consumer, but if the test shows the error to be more than 2% the expense shall be borne by the Company.

The bills for power supplied during the two calendar months preceding such tests shall be corrected in proportion to the error of the meter, provided such error exceeds the aforesaid limit of 2% and such correction shall be accepted by both parties as settlement in full to that date of all claims on account of inaccuracy of the meter.

16. The Company shall establish and make all connections necessary between its distribution system and any premises whatsoever within the Town or within the herebefore mentioned additional area or areas for the purpose of supplying electric energy to such premises promptly upon the request of any person desiring such connection to be made or established.

17. Subject to all other terms and provisions of this agreement the Company shall supply electric energy at the meter in the building on the consumer's premises and the cost of the necessary service connection from the Company's distribution system to the said building shall be borne by the Company and the meter shall be the place of delivery of the said electric energy. The consumer shall assume all risk and responsibility in connection with his own wiring on his own premises.

Provided that the Company shall not be required to make a connection with any new consumer's building unless and until such consumer has deposited with the Company a sum equivalent to twice his monthly minimum charge, on which sum the Company shall pay to the consumer interest at the rate of four (4%) per cent. per annum for each full year, and which deposit shall be refunded by the Company to the consumer upon the discontinuance of the service, provided that all payments due by the consumer to the Company have been paid.

The Company shall not be bound to extend the distribution system as acquired by the Company from the Town further than 250 feet to provide service to any one new consumer. In the event of service to any new consumer or consumers involving an extension of the distribution system greater than 250 feet for each consumer to be served by such extension, then the said consumer or consumers shall jointly deposit with the Company a total sum not exceeding one-half of the actual cost of the said extension in excess of 250 feet per consumer, which deposit shall bear interest at the rate of four (4%) per cent. per annum for each full year and the said consumer or consumers shall jointly also pay in addition to the usual rates as herein provided a total monthly charge of 1% of the actual cost of the extension in excess of 250 feet per consumer so long as such excess continues. In the event of any additional consumer or consumers subsequently taking service by means of any such extension they shall make a proportional deposit and pay their proportion of the monthly charge of 1% and the proper proportion of the deposit shall be refunded by the Company to the original depositors in order that the deposit in the hands of the Company shall at no time exceed one-half of the cost of that part of the extension in excess of 250 feet for each consumer by the said extension.

18. All accounts for energy consumed shall be due and payable when rendered. If any account to any consumer shall remain unpaid for more than thirty (30) days after having been rendered the Company shall have the right, after giving forty-eight (48) hours' notice, to discontinue the service and to remove the meter, and it shall not be bound to supply any electric energy to the said consumer thereafter until the said account shall have been paid, together with a re-connection charge which shall be a sum equivalent to twice the monthly minimum charge for such service, and the said re-connection charge shall be payable whether the meter has actually been removed or not. Any consumer whose premises are temporarily disconnected at his request may be required to pay the said re-connection charge before service is resumed by the Company; provided that this provision shall not apply to the curling and skating rink in the Town. Any such re-connection may be considered as a new connection and the Company shall have the right to require a deposit as herein provided in addition to such re-connection charge before making such re-connection.

19. This agreement shall be read subject to the terms of Section 360 of the Town Act, namely that at the expiration of the term hereby granted the same may be renewed for a period not exceeding ten (10) years (and so from time to time), with such alterations, if any, as may be agreed upon by the parties and approved by the Board of Public Utility Commissioners and that if either party refuses to renew such contract, or if the Parties fail to agree as to the conditions of such renewal, then the Council of the Town may, subject to the approval of the Board of Public Utility Commissioners, purchase all the rights of the Company in all matters and things under this contract and in all plant, machinery equipment, apparatus and property used for the purpose thereof, for such price and on such terms as may be agreed upon with the Company, or failing such agreement, then for such price and on such terms as may be fixed and settled by the Board of Public Utility Commissioners on the application of either of the Parties.

Provided that this paragraph shall not apply to any portion of the Company's main transmission line and step down sub-station.

20. Subject to the observance and performance by the Company of the terms and covenants of this Agreement the Town shall not for a period of ten (10) years from the date of the execution of this agreement grant to any other person, firm or corporation the right to erect, construct, establish, maintain or operate an electric light and electric power plant or to sell or dispose of electric light or electric power in the Town for any purpose.

21. Provided and it is distinctly understood and agreed that in the event of any default by the Company in the observance and performance of any of the terms, conditions and covenants of this agreement and particularly in the event of the Company failing to meet its obligations as hereinbefore provided to furnish continuously and without interruption light, heat and power to the extent of the requirements of the Town and the inhabitants thereof the rights and privileges hereby granted shall (at the option of the Town) cease and determine in the same manner and to all intents and purposes as if the full period of ten (10) years herein mentioned had elapsed and the Town shall have the right to purchase the plant and property of the Company on the same terms and conditions as at the expiration of the said period of ten years; provided that none of the rights or remedies of the Town under this Agreement, and in particular any right to recover damages from the Company for such default in a Court of competent jurisdiction, shall be in any way merged, waived, suspended, prejudiced or affected by the exercise of the said option on the part of the Town.

Failure on the part of the Town to exercise the said option shall not operate as a waiver of the Company's default or prevent the exercise of such option in the event of any later or similar default by the Company.

22. Nothing in this agreement contained shall release the Company from liability at law for injury sustained or suffered by any person or property by reason of any act or omission of the Company, its agents and servants, and the Company shall indemnify and save harmless the Town from

all loss, costs, charges, damages or expenses which may arise or be incurred, suffered or sustained by the Town as a result of the exercise by the Company of the rights, powers and privileges hereby granted, which, without restricting the generality of the foregoing, includes any work that may at any time be undertaken by the Company within the corporate limits of the Town.

23. The Company shall observe all by-laws of the Town and shall conform to all regulations imposed by such by-laws which are applicable to the Company and its operations.

24. All the rights, powers and privileges reserved to and conferred upon the Town by this agreement may be exercised and enjoyed by the Council of the Town and any person or persons from time to time authorized by the said Council for that purpose.

25. This agreement shall be subject to and will only take effect upon ratification of the by-law of the Town authorizing the same by the ratepayers and burgesses of the Town in accordance with the provisions of the Town Act and the date of the execution of this contract hereinafter referred to shall, for all purposes, be taken to be the date of the execution of this contract by the Town or the final passing of the said by-law authorizing the said contract, whichever shall be last.

26. The Company shall submit, and it hereby agrees to submit the business and operations thereof pursuant to this agreement to the control and supervision of the Board of Public Utility Commissioners of the Province of Alberta in all respects as the Company would have been subject to such control and supervision had it come within the provisions or description of paragraph (g) of Section 2 of the Public Utilities Act.

27. Notwithstanding anything herein contained it is mutually acknowledged and understood by and between the parties hereto that the Company is a licensee of a Dominion Water Power and as such is subject to and bound by the provisions of The Dominion Water Power Act and (or) The Dominion Lands Act and the regulations passed pursuant thereto as far as the same may prevail.

THIS Agreement and everything herein contained shall respectively enure to the benefit of and be binding upon the Parties hereto and their respective successors and assigns.

IN WITNESS WHEREOF the Parties hereto have executed these Presents the day and year first above written.

THE TOWN OF DIDSBURY

Mayor.

Secretary-Treasurer.

CALGARY POWER COMPANY, LIMITED.

THIS IS EXHIBIT "X" REFERRED TO IN THE FOREGOING BY-LAW.

THIS INDENTURE made in duplicate this

A. D. 1927.

day of

BETWEEN:

THE TOWN OF DIDSBURY, a municipal corporation under and by virtue of The Town Act of the Province of Alberta, hereinafter called "the Town"

OF THE FIRST PART,

—and—
CALGARY POWER COMPANY, LIMITED, a body corporate with head office at the City of Montreal, in the Province of Quebec, hereinafter called "the Company"

OF THE SECOND PART.

WITNESSETH that in consideration of the sum of Five Hundred Dollars now paid by the Company to the Town (the receipt whereof is hereby acknowledged) the Town hereby gives to the Company the sole and exclusive option irrevocable within the time for acceptance herein limited to:

(a) Acquire from the Town the sole and exclusive right, license and privilege (all of which are hereinafter included in the term "franchise") to erect, construct, establish, maintain, repair and operate a suitable electric light and electric power distribution system within the limits of the Town as at present constituted or as they may from time to time be extended and to supply, sell and dispose of electric light and electric power for lighting, heating, power and for any and all purposes for which electricity is or may be or become suitable or adaptable to the Town and its inhabitants, including the inhabitants of any area or areas which may hereafter be added to and/or contained within the limits of the Town (all of which are hereinafter referred to as and included in the term "franchise") and

(b) Purchase from the Town all the entire electric distribution system of the Town (as it exists at the date of acceptance of this option) consisting of, without restricting the generality of the foregoing, all poles, fixtures, wires, transformers, meters, street lights and street lighting equipment, in or upon the streets, alleys, lanes, private or public buildings or other locations within the Town and owned by the Town and also all supplies, spare parts, meters, transformers, tools and warehouse contents, wire and poles acquired by the Town for use in connection with the said electric distribution system.

The purchase price of the said property referred to in paragraph (b) hereof free and clear of all liens, charges or encumbrances, shall be the sum of Eight Thousand Dollars which shall be paid in cash on the acceptance of this option, it being understood and agreed by and between the parties hereto that the said sum of Five Hundred Dollars paid by the Company to the Town as part consideration for the giving of this option, shall upon the acceptance of the said option by the Company, be credited and allowed as part payment of the said purchase price of Eight Thousand Dollars hereinafter mentioned.

It is further understood and agreed by and between the Parties hereto that the option hereby granted as particularly described in paragraphs (a) and (b) hereto is one and indivisible and shall only be open for acceptance by the Company in its entirety.

The option hereby given shall be open for acceptance up to but not after 5 o'clock p. m. on the first day of May, A. D. 1928, and may be accepted by a letter delivered to the Secretary-Treasurer or Clerk or Mayor of the Town accompanied by a marked cheque in favor of the Town for the sum of Seven Thousand, Five Hundred Dollars or by mailing the said letter and cheque addressed to the Secretary-Treasurer or Clerk or Mayor of the Town at Didsbury, Alberta.

The said franchise and the said agreement to purchase, the option for which is hereby granted shall, if the said option be accepted as herein provided, be embodied in and subject to all the terms and conditions of a formal agreement which shall be in the form set out in and attached hereto as Schedule "A" and on the acceptance by the Company of the option hereby granted the same shall constitute a binding franchise and purchase agreement between the Parties hereto subject to all the terms and conditions set out in the said Schedule "A" attached hereto.

Without prejudice to the foregoing, it is understood and agreed by and between the Parties hereto that upon the acceptance of the said option the Parties hereto shall formally execute an agreement in the form set forth in Schedule "A" attached hereto.

This agreement shall be subject to and will only take effect upon the approval of the Board of Public Utility Commissioners of the Province of Alberta and upon ratification of the by-law of the Town authorizing the same and upon ratification of the by-law of the Town authorizing the signing and execution of the agreement set forth in Schedule "A" attached hereto, by the ratepayers and burgesses of the Town in accordance with the provisions of the Town Act and the date of the execution of this agreement hereinafter referred to shall, for all purposes, be taken to be the date of the execution of this contract by the Town or the final passing of the said by-law authorizing this agreement and that set forth in Schedule "A" whichever shall be last.

This Agreement and everything herein contained shall enure to the benefit of and be binding upon the parties hereto and their respective successors and assigns.

IN WITNESS WHEREOF the Parties hereto have caused their respective corporate seals to be affixed and these presents to be signed by their respective proper officers, duly authorized in that behalf,

The Corporate Seal of the Town of Didsbury was affixed this

day of

A. D. 1927.

The Corporate Seal of the Calgary Power Company, Limited, was affixed this

day of

A. D. 1927.

NOTICE.

TAKE NOTICE that the foregoing is a true copy of a proposed By-Law which has been introduced and which will be finally passed by the Council of the Town of Didsbury within four weeks from the assent of the burgesses of the said Town thereto and the votes of the burgesses or ratepayers of the said Town for and against the said By-Law will be taken on Tuesday, the 8th day of November, A. D. 1927, at the office of the Secretary-Treasurer of the said Town, and that the Poll will be opened for such purpose between the hours of ten o'clock in the forenoon and seven o'clock in the afternoon and that I shall attend at the place aforesaid for the purpose of summing up the votes for and against the said By-Law at the hour of seven o'clock in the afternoon of the said 8th day of November, A. D. 1927.

Dated this 10th day of October, A. D. 1927.

W. A. AUSTIN,

Returning Officer.

LOCAL AND GENERAL

A masquerade dance will be held in the Opera House, Didsbury, on November 7th, under the auspices of the I.O.D.E.

A. M. Watson, who left recently for the north, has now been given the position of manager of the Royal Bank at Spirit River. Mr. Watson originally was taken on here as a junior by Mr. Lowrie in the Royal Bank, and that his promotion has come so quickly must be a source of gratification to his co-workers no less than to his friends generally.

On Saturday, at the Opera House, John Gilbert will appear in "The Show."

The Live Stock Pool shipped out this week three cars of cattle and one of hogs.

Hon. J. E. Elliot, Minister of Public Works for the Dominion, had his private car sidetracked here on Wednesday, whilst making a visit to his farm east of Didsbury.

Ken Maynard will appear at the Opera House here on Wednesday, Oct. 19th, in the "Overland Stage."

An I.O.D.E. tea will be held at the home of Mrs. S. G. Watt on Oct. 21st, from 3.00 to 6.00 p.m.

You must try RED ROSE ORANGE PEKOE. A little higher price than other teas, but a real difference in quality. Now packed in Aluminum.

Higher Education In Canada

During the month of October two notable celebrations have occurred in Canada,—the centenary of the University of Toronto, the original charter of which was granted by King George IV. in 1827, and the golden jubilee of the University of Manitoba. Needless to say, both anniversaries were marked by interesting ceremonies and attended by many distinguished men and women. Well deserved tributes to the part played by these institutions of higher learning in the religious, political, scientific and economic life of Canada were voiced. Indeed, the influence of the older of these two great institutions has been felt throughout the United States as well as Canada.

Considering the population of Canada, and the number, size, and financial strength of Canadian universities, it is not only surprising but a distinct tribute to these bodies that they occupy such a relatively high place among the universities of the world. All of Canada's universities are still young in years, but their standards are high and their achievements noteworthy. Their graduates are to be found all over the globe doing some of the best of the world's work.

For example, it is revealed by a recent survey of medical colleges in North America made by Rockefeller Foundation that the Medical College of the University of Toronto ranks first, with Harvard University second, John Hopkins University, Baltimore, third, and McGill, Montreal, fourth, a truly remarkable showing for Canada. Instead of Canadians having to go abroad in order to obtain the best in University training, the reverse is true, and hundreds of United States students are annually enrolled in Canadian institutions. Even from the British Isles come students to take the engineering courses at McGill, and to pursue their medical studies in Canada.

It was from the medical college of Toronto University that Dr. F. G. Banting gave his wonderful discovery of insulin to the world, while many of the great engineering feats in Canada during the last fifty years, and in other parts of the world as well, are due to the genius of Canadian University trained engineers.

From the earliest days, education has been given the very forefront in every Canadian programme. It has dominated the thought and inspired the policies of the Canadian people. The result is seen in the character of the people, in the strength of our public institutions, and in the growing importance of Canada in world affairs.

The younger universities of these Western Provinces are worthily upholding the traditions and standards of the older institutions and will play an equally important part in the upbuilding of the West and in the contributions they will make to the life of the Dominion. Particularly in their research, survey, and extension departments is work of the most vital interest to this country being performed. The strides being made in the development of agriculture along scientific lines, and in overcoming plant pests, such as rust, will not only mean untold millions to the farmers of the West, but will result in a general raising of the standard of living, of cultural equipment, and of the level of prosperity throughout Canada.

In one of the three prairie provinces at the present time, one in every four of the population is attending school. In a small Western city of approximately 40,000 population there is at present enrolment in public and separate schools, high schools, colleges, and other institutions of learning no less than 10,000 students. The writer has not the data but no doubt the same statement can be made of other Provinces and cities in the West. The heaviest single item of taxation borne by the people is for education, but it is borne gladly and without complaining. In fact, it is a matter of pride and the boast of the West.

No other subject, no other department of the Government, is watched more closely than education. It is well that this should be so, because in the intelligence, the training, the character of the younger generation lies the hope, the future of this great country. Here is to be found the basic foundation of all that is fine and worthwhile in life, and upon such foundation rests the strength and greatness of any people or nation.

Latest Radio Invention

System Of Tuning Receivers Without Touching the Dial

An electric device contained in a little box which can be carried about the house or placed on the arm of a chair has been invented for the purpose of tuning a radio set no matter whether it be in the living room, attic or cellar. There are no intervening

wire or mechanical connections between the receiving set and the control box. The inventors are Bowden Washington, formerly of the United States Navy and Wilson Auld, Jr.

The receiver can be controlled from any spot convenient to the operator without manipulation of the tuning dials of the receiver proper. It is pointed out by the inventors that the radio set can thus be installed in an out-of-the-way place and forgotten until a tube replacement or a maladjustment must be effected.

Had Own Airplane

Princess Lowenstern-Wertheim, the passenger in the missing St. Raphael, took up flying many years ago, and during the war owned an aeroplane of her own—a fact which sometimes made the authorities look at her askance, for she had an Austrian name, even though she acquired it only by marriage, which terminated in the death of her husband in 1899. The Princess was 60 last year, despite her youthful appearance.

The ease with which corns and warts can be removed by Holloway's Corn Remover is its strongest recommendation. It seldom fails.

The bungalow got its name in India. Early British residents built one-room, partitioned dwellings, called them "bungalows" from the Hindu word "banga," meaning thatched hut.

Minard's Liniment for Lumbago.

Canadian Poet Honored

Halifax Girl Named In Recent Shakespeare Verse Competition

Mary Seton, of Halifax, N.S., is among those who are placed in the order of merit in the poems in English section of the Shakespeare verse competition promoted by the Poetry Society and incorporated in aid of the Memorial Theatre fund at Stratford-on-Avon.

The competition has attracted a world-wide interest, poems being submitted in many languages. A sonnet by Frank Beresford, of Wolverhampton, England, was placed first in the English Poems Section.

A New Slip

Did you know that a fifteen-cent envelope of Diamond Dye will duplicate any delicate tint that may be the vogue in dainty underwear? Keep your oldest lingerie, stockings too, in the shade of the hour. It's easy if you only use a true dye. Don't streak your nice things with synthetic tints.

Dye or that anything; dresses, or drapes. You can work wonders with a few, inexpensive Diamond Dyes (true dyes). New colors right over the old. Any kind of material.

FREE: Call at your druggist's and get a free Diamond Dye Cyclopedia. Valuable suggestions, simple directions. Pleasure goods color samples. Or, big illustrated book Color Craft free from DIAMOND DYES, Dept. N9, Windsor, Ontario.

Diamond Dyes

Just Dip to TINT, or Boil to DYE

Lighting an American match in Peru may cause a fine of \$20. A Swedish match company has a monopoly on the sale of matches in that country.

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

SUNDAY SCHOOL LESSON

OCTOBER 14

ELIJAH IN NABOTH'S VINEYARD

Golden Text: "Be sure your sin will find you out."—Numbers 32:23.

Lesson: 1 Kings 21.

Devotional Reading: Psalm 94: 17-23.

Explanations and Comments

I. A Covetous and Pettish King, verses 1-4.—Near Abah's place in Jezreel was a vineyard which the king coveted. He tried to buy it, but Naboth, its owner, would not part with his inheritance. See the law in Lev. 25:26. The petulant king, unexpectedly thwarted in his wish, like a spoiled child entered his palace, threw himself on his couch and refused to eat.

What an example of the state of mind of one who gives way to selfish desires! What a small matter for a king to get into a state about! And on what small matters men and women often set their hearts and become miserable because they are unattainable!

II. A Masterful and Wicked Queen, verses 5-10.—Jezebel inquired the cause of Abah's displeasure, and learned that Naboth had refused to sell or exchange his vineyard, which Abah wished for an herb garden. Tauntingly Jezebel asked him if in truth he ruled Israel; if he was too weak to get what he wanted, she would get it for him.

So Jezebel wrote letters, which she signed with the king's seal, and sent them to the elders and nobles bidding them proclaim a fast (which would give a pretext for a public assembly), set Naboth in a prominent place, have ready two witnesses to swear that they heard Naboth curse God and the king, and then have him carried without the city and stoned to death.

"How potent a woman's influence is for good or ill; but an evil woman will more quickly debauch her husband than a noble woman will uplift him."—P. U. Meyer.

THE GREAT HERBAL SKIN BALM

Do Not Read This

If you have finally decided to remain one of the twenty-five million human beings who Dr. Robert Bell, the eminent British medical authority, has solemnly assured the world, are now destined to die from the deadly scourge of Cancer, which is an unconsciously self-inflicted blood disease caused by your present diet.

Cancer is neither hereditary, contagious nor infectious, and the proof it is caused by civilization's acid-creating diet lies in the fact that the disease is unknown among uncivilized races which live upon Nature's own abundant provision. The modern diet of the civilized world robs its consumers of all, or almost all the health-preserving potassium and other organic salts which the Creator has placed in the food of man and beast. Man is the only created being on earth who deliberately destroys his food values by refinement or cookery destruction. And when, after years of slow but sure potassium starvation, the digestive organs can no longer function properly, the body cells, lacking their essential nourishment, finally break down and exhibit cancerous, fibroid or other abnormal growths—frequently after ulceration of stomach or duodenum—and unless the potassium deficiency is remedied, diet reformed and complete elimination of waste matter assured, suffering, disease and premature death that no surgical operation, radium or X-ray treatments can do other than hasten, must result.

Thousands of men and women have repaired and others are now repairing the damage inflicted upon their bodies by years of wrong diet. These have won or are winning back their priceless health and efficiency by restoring their potassium deficiency. Why wait until you are cancer-stricken before insuring your immunity from the deadliest known disease? If you value health and efficiency and wish to, at home, repair past errors which if continued, mean an early grave, a valuable book will be freely mailed you on application to Charles Walter, 51 Brunswick Avenue, Toronto, 4, Canada.

Gratitude is the fond recollection of the heart.

The saxophone was named after its inventor, Antoine Joseph Sax, of Belgium and Paris, who invented several reed instruments about 1840.

NO BETTER MEDICINE FOR LITTLE ONES

Is What Thousands Of Mothers Say Of Baby's Own Tablets

A medicine for the baby or growing child—one that the mother can feel assured is absolutely safe as well as efficient—is found in Baby's Own Tablets. The Tablets are praised by thousands of mothers throughout the country. These mothers have found by actual experience that there is no other medicine for little ones to equal them. Once a mother has used them for her children she will use nothing else. Concerning them Mrs. Charles Hutt, Tancook Island, N.S., writes: "I have ten children, the baby being just six months old. I have used Baby's Own Tablets for them for the past 20 years and can truthfully say that I know of no better medicine for little ones. I always keep a box of the Tablets in the house and would advise all other mothers to do so."

Baby's Own Tablets are sold by all medicine dealers or will be mailed upon receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

The electric chair has something to do with deterring criminals but the proper place to start is in the high chair.

Sleep is the great nourisher of infants, and without peaceful sleep the child will not thrive. This cannot be got if the infant be troubled with worms. Miller's Worm Powders will destroy worms and drive them from the system, and afterwards the child's rest will be undisturbed. The powders cannot injure the most delicate baby, and there is nothing so effective for restoring the health of a worm-worm infant.

Among other remarks of distinction, Canada is the largest contributor to the world's bread-basket.

For years Mother Graves' Worm Extremator has ranked as a reliable worm preparation and it always maintains its reputation.

The driver may lose control of his car, but the credit corporation that looks after his instalments—never.

WARNING! Beware of Counterfeits

There is only one genuine "ASPIRIN" tablet. If a tablet is offered as "ASPIRIN" and is not stamped with the "Bayer Cross"—refuse it with contempt—it is not "ASPIRIN" at all! Don't take chances!

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoacetic-acidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

PREPARE PLANS FOR CONFERENCE OF PREMIERS

Ottawa.—Plans for the inter-provincial conference, otherwise known as the conference of Provincial Premiers, which will meet at Ottawa, November 3, are rapidly taking shape.

Arrangements are in the hands of Hon. Ferdinand Rinfret, secretary of state, and while no details of the agenda will be disclosed until the time for the conference arrives, it is known to include many matters of wide and far-reaching interest and effect. At the suggestion of the secretary of state, provincial governments have submitted questions on practically the full range of provincial jurisdiction under the British North American Act, and federal departments have supplemented these with questions of Dominion concern which also have a bearing on provincial affairs.

The conference should produce a unification of practice on many problems of inter-provincial concern, such as companies law, insurance practice, etc., and should result in important decisions operating to the benefit of each of the provinces as well as to the Dominion.

More effective co-ordination between provinces and between the Dominion and provinces is one assured result. The conference will be fully open to the discussion of any and all problems of interest and concern and should, it is felt here, result in material benefit to the Dominion at large.

Australian Tariff Trouble

Canberra, Australia.—The imposition of increased tariffs on certain classes of imports is condemned by the tariff board which has just reported to the Commonwealth Parliament on its enquiry into tariff matters. Instead of improving the Commonwealth's industries, the report states, such tariffs have resulted in stagnation and increased cost of production and living.

Test Legality Of Betting

London.—A batch of summonses to test the legality of betting on greyhound racing will be heard October 25. The principal instigators in the prosecution are the National Anti-Gambling League and the chief defendants are the Greyhound Racing Association, lessees of the Stadium at the White City.

Want Non-Political Estimates

Ottawa.—A resolution embodying a request to the Dominion Government asking that the militia estimates and the general policy of defence be taken out of the hands of political factions and placed with a committee of both branches of Parliament, was passed at the meeting of the Canadian Cavalry Men's Association.

Raid Montreal Stock Brokers

Montreal.—Provincial police swooped down on the financial district here in a drive on stock brokers who are alleged to be using their premises for gambling in stocks. The descent in three St. Francis Xavier Street offices netted the raiders nothing but locked doors, the police finding the places visited closed to regular admission.

Outside the British Isles there are fewer than eighteen million white people in the thirteen million square miles of the British Empire.

A Man Of Rare Attainment

Honored politically and professionally, during his lifetime, Dr. R. V. Pierce, whose picture appears here, made a success few have equalled. He was the originator of that great herbal tonic, Dr. Pierce's Golden Medical Discovery, the sale of which has, each succeeding year, been greatly increased.

When you feel weak, tired, easily become discouraged quickly and sometimes feel like giving up the struggle, just ask your nearest druggist for Dr. Pierce's Golden Medical Discovery, or "G.M.D." in fluid or tablets. Users everywhere laud its praises. Send 10 cents for trial pkg. of tablets to Dr. Pierce's Laboratory in Bridgeburg, Ontario.

Congratulated By Prince

Canadian War Graves Commission Receives Letter Of Appreciation Ottawa.—The interest manifested by the Prince of Wales in veterans of the Great War, during his visits to Canada, has been indicated in news despatches. That he also has noted and appreciated the work being done in Canada to commemorate the memory of those veterans who died and are buried in the Dominion is indicated in a letter received by Col. H. C. Osborne, secretary-general for Canada of the Imperial War Graves' commission. This letter, written by direction of the prince, congratulates the Canadian agency of the War Graves' commission on the work, and expresses gratification that the memory of the soldiers who are buried in Canada is being preserved in the various burial grounds.

Marriage Rate Is High

More Marriages In Alberta In 1926 Than For Previous Five Year Average

Edmonton.—The year 1926 proved to be the highest year in Alberta, compared with the five preceding years, according to figures issued by Donald Mackie, deputy registrar general for Alberta. There were 4,498 marriages registered during the year, which is 35 more than in the preceding one, and 184 more than the average of the five preceding years.

Edmonton had 1,993 marriages; Calgary, 1,004; Lethbridge, 194; and Medicine Hat, 115. There were 102 brides 16 years of age and under, 1,080 brides between 17 and 19, and 1,842 between 20 and 24. There were 17 brides and 45 grooms over 60 years of age, 11 of the grooms and two of the brides being over 70 years.

Fliers Complete Journey

Covered Twenty-Two Thousand Miles In Six Weeks

Detroit, Mich.—Completing a 22,000 mile journey in six weeks, Edward F. Schlee and William S. Brock arrived at Ford Airport in the around the world monoplane, Pride of Detroit. Schlee stepped from the plane first and was greeted enthusiastically by his wife.

Although two women claimed him while he was gone, there was no woman to greet the copilot.

The airmen were welcomed by Henry and Edsel Ford, Eddie Rickenbacker and Edward S. Evans, joint holder of the globe gliding record of 28 days and 14 hours, which Schlee and Brock tried to lower.

Students Found Joke Costly

Seniors At Ontario Agricultural College Taught A Lesson

Guelph, Ont.—Sophomores of the Ontario Agricultural College found a prank on the freshmen very expensive.

While the first year students were at a dance, the seniors soaked the freshmen's bedding with water and ruined about \$400 worth of good clothing. The college authorities have compelled the sophomores to pay for the damage and in addition have forced them to pay board bills for two weeks, expelling them from residence for that period.

Japan May Send Troops

Tokyo.—The Japanese government is seriously considering the sending of troops from Manchuria to Peking and Tientsin if the situation in the Chinese civil war becomes worse, a spokesman for the Japanese war office declared. In the meantime the government is closely watching developments.

Hertzog Attacks Smuts

Bloemfontein, South Africa.—Premier Hertzog, of the South African Union, speaking at a meeting in the town hall here, on the flag issue, bitterly attacked General Smuts, leader of the opposition, whom he accused of perverting the truth and fostering racial strife and discord for his own political ends.

Received Legion Delegates

The King held a reception in Buckingham Palace for the American Legion delegation on the official five-day visit to London of the United States war veterans. His Majesty received the legionnaires, headed by General Pershing and O. P. Savage, retiring national commander.

Toc H Movement

Men, not money, is what he wants, says Padre Harry B. Ellison, one of the chief missionaries of the Toc H movement, touring Canada in the interests of the organization. The name of the movement, already firmly established in Great Britain, in Australia, in South Africa and other parts of the world, is an abbreviation of Talbot House, a famous institution in Poperinghe, near Ypres, during the war. He is one of the best known personalities in Great Britain and is affectionately known by many throughout the British Empire as "Uncle Harry."

Declares Soviet Rule Will Be Short Lived

Does Not Represent Russian People Says Oil Magnate

New York.—Sir Henri W. A. Deterding, of London, director-general of the Royal Dutch Petroleum Company who has been recently engaged in a bitter controversy with the Standard Oil Company of New York over control of Russian wells, predicted through his New York representative that the Soviet government would be short-lived.

Sir Henri asserted that the Soviet government, which has taken over natural industries and resources, did not represent the Russian people.

Recalling that in June, 1918, the Soviet authorities confiscated the oil fields, refineries, machinery, stocks and assets, Sir Henri added:

"Politically this is confiscation; practically all of these objects were stolen, not by representatives of the people, but by a gang who, by controlling the army had usurped the power to do anything which would not have been tolerated otherwise," he declared.

Builds Motorless Plane

Cocoa, Fla.—A motorless flying craft has been built here by George R. White, of Stony Brook, L.I. The machine looks like a giant gale and its wings beat the air like a bird's. It is called an ornithopter and has made short flights successfully.

Plan Might Be Feasible

Idea Suggested By U.S. Professor To Aid Farmers

Urbana, Ills.—Two means of giving the farmer a fairer break in competition with the world price of farm products have been outlined by Professor C. L. Steward, chief of agricultural economics at the University of Illinois.

Prof. Steward has suggested a \$200,000,000 bounty to be paid the exporters of agricultural products from present tariff income. He would place the wheat crop of the United States under the control of a board, which would export one fifth of the crop and tax the remainder at the rate of 10 cents a bushel to meet the deficiency in the price received for the exported wheat.

In the first place, he said, the tariff rate was now so high that import of foreign goods has been greatly reduced. If the rate were cut the increased importation would so increase tariff revenue that the bounty would be paid without loss of government funds.

Research Conference

Imperial Agricultural Research Conference Held In London

London.—The Imperial Agricultural Research Conference, the first of its kind ever held in Great Britain, has assembled here. About 200 delegates from throughout the empire will study animal and plant breeding, preservation and transport of foods, development of soils and fertilizers with the aim of making the empire completely self-supporting.

The establishment of research stations throughout the empire and organization of a flying corps of scientists, who could be called upon by any Dominion or colony to attack agricultural problems, will be considered.

Minister of Agriculture, Walter W. Guinness, welcomed the delegates to the conference and Lord Bledisloe was appointed chairman.

More Settlers Wanted For Lethbridge District

Fifty Families Needed To Complete Colony In Irrigation Area

Lethbridge.—According to the Provincial Government, fifty families are wanted to complete the colonizing of the Lethbridge Northern Irrigation District. There are now 900 families in the project, of which 500 have been established within the past two years. In 1924 the district's agricultural production was valued at \$568,000; in 1925, \$1,215,000; and in 1926, \$1,526,000. This year it is estimated production from Lethbridge northern farms is worth \$2,500,000.

Ask Recall Of Soviet Ambassador

Paris.—M. Briand, French Foreign Minister, sent instructions to Jean Herbetten, French ambassador to Moscow, to inform the authorities that the French Government no longer considered Christian Rakovsky persona grata and desired that a new Soviet ambassador be sent to Paris.

BRITISH PEER DENOUNCES THE HOUSE OF LORDS

Blackpool, England.—The exhibiting spectacle of a peer denouncing his own legislative chamber in great set terms, was presented at the Labor Party conference here, by Lord Arnold, who, as Sidney Arnold, was a Liberal member of the House of Commons for some time. He went over to the Labor Party in 1922, and was Under-Secretary of State for the Colonies, in the late Labor Government, in 1924, and was created a peer the same year.

"The House of Lords will never give the Labor Party a fair chance, because it is blind to the signs of the times," Lord Arnold declared. "It is callous, inconsistent, insensible, selfish, cynical, obstructive, unscrupulous and utterly reactionary."

"It has been said by an august Liberal that to go and look at the Lords is enough. I, myself, after three and one half years' experience in the Lords, would say that to be in it is more than enough."

These sentiments were expressed by the Labor peer while he was seconding a resolution condemning the Baldwin Government for its proposals for the reform of the House of Lords, and urging the complete abolition of the Upper House.

The resolution was carried.

How Money Is Expended

Federal Minister Of Finance Shows Division Of Per Capita Levy

Regina.—From each person in Canada \$34.60 is collected annually by the Dominion Government, Hon. J. A. Robb, Federal Minister of Finance, stated in an address to the Women's Liberal Club at a meeting in the Canadian Legion Hall.

Of this sum, \$13 goes to pay the interest on the national debt; \$4.20 to make possible a reduction of this debt; \$3.70 to provide pensions for disabled soldiers, widows and orphans; \$1.25 to the Provincial Governments; \$1 for collection; three cents to the actual administration of the country; and \$11.42 for such things as the maintenance of railways and canals, inspection of food-stuffs, expenses of trade agents, colonization efforts, and administration of law and order.

National Council Of Women

Annual Convention Is Held At Stratford, Ontario

Stratford.—The causes being championed by the National Council of Women were outlined by Mrs. J. A. Wilson, of Ottawa, president, at the opening session of the annual convention here. These included the prevention of the causes of war; the stamping out of all unjust laws; the upholding of an equal moral standard for all; and an equal opportunity for all to develop to the fullest extent their physical, moral and mental powers.

Mrs. Wilson was honored with a life membership in the organization, similar awards being given to Miss Caroline Carmichael and Mrs. H. H. Rowatt, of Ottawa, and Mrs. M. I. Robertson, of Saskatoon.

May Develop Power Scheme

Prince Albert.—President H. M. Sibbald, of the Board of Trade has informed the members, that an eastern firm is looking into the Lacotte Falls power scheme with a view of developing it to provide electric light and power for Prince Albert and Saskatoon. Mr. Sibbald also reports in connection with the completion of the railway line between St. Paul des Metts, and St. Walburg. This matter will be brought to the attention of the Government at its next session.

Ten-Year-Old Robs Mail

Escanaba, Mich.—Authorities are wondering what to make of the case of ten-year-old Ellen Miner, who classifies as a mail robber because she broke into the National Bank's postal box and threw away \$75,000 in cheques. She admitted taking the mail, prying open all the letters, and throwing them away when she failed to find the pretty pictures she was seeking.

A CHAMPION IN THE MAKING

Miss "Patsy" McKenna, daughter of Ned McKenna, professional of the Minaki Lodge Golf Course, of the Canadian National Railways, on the Winnipeg River, Ontario, is going to be a champion like her "Dad." She believes in the axiom "Practice makes perfect," so she has begun early to take lessons from "Dad," and is already something of a stylist.
